

Kawasaki Robotics e-News

K-Roboride launched

Kawasaki Robostage reopened on July 15th with a new attraction, **K-Roboride** which combines technologies of industrial robots and Virtual Reality (VR) together. Visitors can experience an imaginary flight in the Air by wearing a head mounted display (HMD) to watch 360-degree VR videos. Come and experience Kawasaki's new challenge here in Odaiba, Tokyo! Singapore Kawasaki Robot Engineering Center

Kawasaki has opened **Singapore Kawasaki Robot Engineering Center (SKRE)**.

This new center supports robot application engineering and provides training for the dual-arm collaborative robot, duAro.

To date Kawasaki has supplied more than 13,000 wafer handling robots, contributing to Singapore's industrial development. Earlier in 2014, Singapore Kawasaki Robot Center was founded to strengthen after sales services in Singapore. (Photo: SKRE's new training room)
