

COVID-19 UPDATE

March 23, 2020

WIXOM, MI - As a result of the Michigan Governor issuing a stay at home order and requiring the closure of all non-essential businesses in the state, Kawasaki Robotics (USA), Inc., (KRI) will be closed Tuesday March 24 through Monday April 13, 2020.

Some of our customers are classified as essential businesses and we will endeavor to service these customers on a priority basis wherever this does not jeopardize the health and wellbeing of our employees.

Kawasaki Sales, Engineering, Customer Support and Administration will continue to work and operate remotely. We will conduct as much business as possible by remote means.

Our Sales and Customer Support teams are still available for assistance via phone and email. For Customer Support, call (248) 446-4271 or email service@kri-us.com. Email any general questions to info@kri-us.com.

We understand that this is a strange and stressful time, and our team is here to help however we can. Please don't hesitate to reach out to us with any questions. For all of us the situation remains fluid and we are responding to each new development, and we will reach out again when we have more information to share.
