

Training Path

Level 1

Standard Operation & Programming

D, E, S/S+, and T Series Controllers

Arc Welding Operation & Programming

D, and E Series Controllers

Paint Controller Operation & Programming

E EP, and S+ Series Controllers

K-Roset Simulation Software

Level 2

AS Language

Electrical Maintenance & Troubleshooting

D, E, E EP, S/S+, and T Series Controllers

Preventive Maintenance

Servo Weld Gun Set Up & Operation

D, E, S/S+, and T Series Controllers

Arc Welding AS Language

D, and E Series Controllers

As a prerequisite, Kawasaki suggests students first attend a Level 1 Class.

Students are welcome to sign up for a Level 2 Class once a Level 1 Class has been completed.
